### Our Mission

The Veteran Tribune newspaper is a free print publication founded on September 2004 by Disabled American Veterans (D.A.V. Chapter 3, Tennessee) to serve the unmet information needs of all U.S. military veterans, members of the military currently serving, and their families in Tennessee: active duty, reserve and national guard. We are located in Nashville, Tennessee. Our goals are:

- Bring news, information, functions and happenings that are of interest and value but not typically covered by other media sources to veterans and their families.
- Allow businesses to promote their company/products directly to a veteran audience.
- Raise money to help disabled and non-disabled veterans with critical needs such as access to healthcare, transition to civilian employment, etc.
- Strengthen the veteran community.
